Many adults feel teen drinking and partying is a rite of passage. We encourage parents to face the current realities and learn why and how adults can change these dangerous social norms. Participants will tour a typical home set up to portray a teen party with local youth acting and voicing concerns expressed by teens and young adults.

If you have a child who is 13 yrs or older, you may invite them to experience this event along side you and start or continue the discussion about risky behaviors and expectations.
